ON-CALL SCHEDULE & WEEKEND ACTIVITIES: Student will attend a local high school Junior Varsity and Varsity football game one evening a week with a family practice attending and residents.

ADDITIONAL COMMENTS AND OTHER SPECIAL REQUIREMENTS: This elective is designed specifically for students with a career interest in family medicine. Lunch and parking is provided each day.
# PS365.02 ADDICTION PSYCHIATRY

## COURSE OBJECTIVES (in order of importance)

1. Acquire knowledge about the etiology, diagnosis and management of addictive disorders.
2. Develop skills in inpatient detoxification of drugs of abuse.
3. Learn interviewing techniques such as motivational interviewing – specific to substance abuse.
4. Become familiar with local, state and national treatment resources for patients with substance use disorders.
5. Learn the medical and psychiatry consequences of drugs of abuse.

## COMMON PROBLEMS/DISEASES

1. Alcohol dependence
2. Stimulant dependence
3. Prescription drug abuse
4. Opiate dependence
5. Pathological gambling
6. Marijuana dependence
7. Nicotine dependence

## PREREQUISITES:

Psychiatry

## AVAILABLE TO EXTERNS:

Yes

## STUDENTS / PERIOD:

max 2 min 1

## DURATION:

3 weeks

## 2006–2007 ROTATIONS BEGIN WEEKS:

2,5,8,11,14,17,20,27,30,33,36,39,42,45,48

## DESCRIPTION:

This elective provides an overview of how to identify and manage patients with substance use disorders. Students will function as a sub-intern on the inpatient substance abuse service. Duties will include care of patients admitted for detoxification, management of co-occurring psychiatric disorders and assisting in developing an aftercare program. Students will also participate in the outpatient, Addiction Medicine Clinic to learn techniques of psychopharmacological management of addictive disorders. Finally, students will visit residential treatment facilities, sober living homes and drug courts to gain a full appreciation of the clinical management of patients with substance use disorders.

REPORT TO:  
Drs. Stephen Kee or Chris Loh in room BL-423  
CHS @ 7:20 a.m.

PREREQUISITES:  
Internal Medicine or Surgery

AVAILABLE TO EXTERNS:  
Yes

STUDENTS / PERIOD:  
max 3 - min - 1

DURATION:  
3 weeks

2006 – 2007 ROTATIONS BEGIN WEEKS:  
6, 9, 12, 15, 27, 30, 33, 36, 41, 44

DESCRIPTION:  
The student will be expected to be an active participant on the rotation in both clinical care and the performance of procedures. There will be ample opportunity to have a “hands on” experience in the performance of procedures. Students considering or interested in interventional radiology as a career are highly encouraged to choose this elective.

COURSE OBJECTIVES (in order of importance)  
1. Understand principles, applicability, and limitations of image-guided techniques
2. Develop familiarity with the relative indications, contraindications, techniques and expected risks and benefits of vascular and nonvascular interventional procedures
3. Participation in the pre-procedure and post-procedure work up of patients including film review, H & P
4. Under supervision, perform and interpret basic vascular imaging, including arterial and venous puncture, safe catheter technique and management, power injection, homeostasis, and image acquisition
5. Develop effective and professional communication skills with patients and their families and referring physicians
6. Recognize normal and variant vascular anatomy and pathological conditions, as related to the intended procedure

STUDENT EXPERIENCES  
| 1. Peripheral Vascular Disease | INPATIENT: 60% |
| 2. Biliary Interventions | OUTPATIENT: 40% |
| 3. Dialysis Access Management | CONSULTATION: 90% |
| 4. Inferior Vena Cava Filters | PRIMARY CARE: 10% |
| 5. Venous Access | | |
| 6. Tumor Embolization | | |
| 7. Transjugular Intrahepatic Portal Shunts | | |
| 8. Vascular Malformations | | |
