REPORT TO:
Dr. Stangl, Time and Place TBA

PREREQUISITES: Special selection process by outgoing Student Chiefs.

AVAILABLE FOR EXterns: No

STudents / PERIOD: max 14 min 6

DURATION: Longitudinal Total 2 weeks of credit.

2008-2009 ROTATIONS BEGIN WEEKS:
March 2008

DESCRIPTION: The UCLA Student Run Homeless Family Clinic at Westwood and Santa Monica and the Mobile Clinic are managed and staffed by UCLA students with volunteer faculty supervision. Working with the faculty, Student Chiefs oversee clinic sessions and evening seminars, manage the clinic schedule, patient flow, medical records, and medical formulary and supplies and provide teaching and mentoring to the junior students. Student Chiefs thus have the opportunity to hone their leadership and teaching skills while obtaining practical training in practice management. Each Student Chief has primary responsibility for at least one of the major administrative functions of the clinic or its programs, which include educational innovation and community outreach.

COURSE OBJECTIVES (in order of importance)
Student Chiefs will:
1. Have the opportunity to practice the skills involved in managing a free clinic, including: planning clinic budget and purchases, managing patient records, medication stocks, clinic schedule and personnel, patient flow, child immunization program, and coordination of the health care team under the supervision of attending faculty.
2. Become familiar with the unique challenges of providing health care to an underserved population.
3. Gain insight into the role of patient advocacy, leadership, and teaching in one’s career as a physician.
4. Demonstrate skill and cognitive proficiency in the management of common medical problems and preventative health needs of underserved populations.
5. Have the opportunity to practice medical “precepting” and teaching in the clinical environment.

Student Experiences

COMMON PROBLEMS/DISEASES
1. Skin conditions
2. Respiratory infections
3. Asthma
4. Mental illness
5. Hypertension
6. Diabetes
7. Disease prevention / Preventative Health

ON-CALL SCHEDULE & WEEKEND ACTIVITIES: Westwood Transitional Village and Sameshel: 9:00 a.m. – Noon clinic on Saturdays. Mobile Clinic: 5:00 p.m. – 9:00 p.m. on Wednesdays

ADDITIONAL COMMENTS AND OTHER SPECIAL REQUIREMENTS: For further information, access the website at: www.medsch.ucla.edu/fammed/students.sac2. Applicants for this honor elective must demonstrate prior involvement in SRHC and submit an application (available online: http://fm.mednet.ucla.edu/sac2/default.htm). Chiefs will be concurrently enrolled in FP250.03. Student Chiefs and the Clinic Director will be expected to arrange coverage of the various responsibilities outlined above. They will meet with the course chairman in order to make decisions about managing the clinic and leading the course.
DESCRIPTION: This course offers on-site clinical experience to the third- or fourth-year student in a managed care practice under the auspices of a family practitioner. The practice encompasses a full array of out-patient clinical experiences. Introduction to the concept of managed care will be stressed, with its impact on the decision making process.

COURSE OBJECTIVES (in order of importance)
1. Development of skills in the diagnosis and management of patient care in a Family Practice office utilizing a managed care approach to decision making.
2. Utilize the appropriate problem-solving skills in patient care management.
3. Knowledge and development of clinical procedures performed in the physician's office.
4. Ability to have a professional attitude in the clinical setting.
5. Obtain knowledge of patient referrals to other physicians, home health agencies, and supportive services in a managed care setting.
6. Understand the importance of continuity of patient care in the clinical setting.
7. Develop an understanding of how the managed care physician manages his office staff under the group practice model.
8. Develop an understanding of how the private physician deals with patient emergencies.
9. Understand the financial obligations and responsibilities encompassed in a managed care setting.
10. Understand the role of the physician in the clinical setting.

ON-CALL SCHEDULE & WEEKEND ACTIVITIES: Westwood Transitional Village and Samoshel Shelter: 9:00 a.m. – 12:00 p.m. clinic on Saturdays (3 scheduled per month) Mobile Clinic: Wednesday nights 5:00 p.m. – 9:00 p.m.

ADDITIONAL COMMENTS AND OTHER SPECIAL REQUIREMENTS: Requirements include: 1) attendance at October orientation; 2) participation in a minimum of 7 clinics; 3) attendance at a minimum of 2 evening lectures. 4) Students are required to write up a reflective paper about an interview with a homeless person.

DESCRIPTION: The Student Run Homeless Family Clinic is managed and staged by UCLA medical students with volunteer faculty supervision under the aegis of the Department of Family Medicine. Students will receive a one-week elective pass/fail credit. The Westwood clinic is located at Salvation Army Transitional Family Housing and has a large pediatric population and the child immunization program. “Samoshel” is located in Santa Monica and serves a homeless adult population. The Mobile Clinic has recently joined as a third site. This clinic provides care to an at-risk youth and a predominantly homeless population with a high incidence of IV drug use.

IMMERSION EXPERIENCE IN CROSS-CULTURAL MEDICINE (JAMAICA)

Advanced Clinical Clerkship  
Location: ASSOC (Falmouth, Jamaica)  
2008-2009  
Revised: 11/29/07

COURSE OBJECTIVES (in order of importance)
By the end of the elective, students are expected to gain:
1. Experience in providing health care in a setting with limited resources.
2. Appreciation for providing care to medically underserved, impoverished populations.
3. Understanding of the relationship between poverty and disease
4. Insight into the impact of culture on understanding, approach and management of disease as well as disease prevention.
5. Understanding of the practical elements of clinic management, including the concepts of patient flow, triage, medical record keeping, patient confidentiality, dispensary services and coordination of care
6. First-hand experience of immersion into another culture and the adaptation skills involved in being a “minority” in a foreign environment
7. An appreciation of working with a multidisciplinary team including nurses, nurse practitioners, and other providers
8. Improved efficiency and skill in conducting a direct history and physical, and performing outpatient procedures
9. Insight into public health issues and the concept of treating an individual in the context of his or her community.

### COURSE OBJECTIVES (in order of importance)

1. To define the problems of the patient’s visit in an independent setting with direct supervision.
2. To apply pathophysiologic principles to understanding the problem and management.
3. To attempt to understand each patient’s unique needs for medical care.
4. To expose the student to a variety of medical problems in a busy family practice.
5. To develop an appreciation of some of the ancillary disciplines that a family physician uses, i.e., nutrition, home health care, geriatrics, and subspecialty consultation.
6. To develop an in-depth understanding of a few areas of interest in family practice through tutorials and student presentations.
7. To participate in an outpatient orthopedic and fracture clinic.

REPORT TO: Diane Lustig, 5601 De Soto, Woodland Hills, CA 91365

PREREQUISITES: Medicine, Surgery, and Pediatrics

AVAILABLE FOR EXternS: Yes

STUDENTS / PERIOD: max 1 min 1

DURATION: 3 weeks

2008-2009 ROTATIONS BEGIN WEEKS: By Arrangement

DESCRIPTION: This course emphasizes the role of the family physician in a managed health care setting. The student will work closely with Family Medicine faculty in high volume out-patient clinic and busy hospital environment. The student will join the Family Medicine Residency team on Medicine, (in the mornings, when available); otherwise mornings will be in FP clinic working with residents and faculty seeing outpatients.

ON-CALL SCHEDULE & WEEKEND ACTIVITIES: Optional. Subinterns are expected to take inpatient medicine call till ~10 p.m. when their team is on—usually every fourth night.

ADDITIONAL COMMENTS AND OTHER SPECIAL REQUIREMENTS: This elective is best suited for medical students interested in a career in primary care medicine, partially in family practice. Also useful for those students desiring an inside view of the practice of medicine in a managed care system. Meals are provided. Students have use of library and photocopying privileges. Parking is free.

REPORT TO: Venice Family Clinic
PREREQUISITES: Medicine, Surgery, Pediatrics, OB/GYN, Oral Spanish Language Skills
AVAILABLE FOR EXterns: Yes
STUDENTS / PERIOD: max 1 min 1
DURATION: 3 weeks
2008-2009 ROTATIONS BEGIN WEEKS: By Arrangement
DESCRIPTION: This course is designed to give the student exposure to ambulatory care family practice in a free clinic setting. Students completing this course will have the opportunity to volunteer at the Venice Family Clinic in the future under direct supervision from the course faculty. It is highly recommended that the student speak Spanish.

COURSE OBJECTIVES (in order of importance):
1. Learn to provide health care to a medically underserved population in a community based free clinic.
2. Learn to diagnose and manage common problems in ambulatory family medicine.
3. Learn about interrelationships between community agencies, e.g., interacting with county health facilities, shelters, detox programs.
4. Work with all kinds of community volunteers – physicians, pharmacists, nurses, clinic assistants and health educators.
5. Work with basic laboratory facilities in a cost-conscious manner.
6. Prescribe medications without charge to patients, keeping cost containment in mind.
7. Learn to understand how cultural issues impact on health care delivery.
8. Become exposed to special health care needs of new immigrants from Central America. For example: screening for parasitic infections and treating positive results; screening for Tuberculosis; providing appropriate immunizations for a previously non-immunized population.

COMMON PROBLEMS/DISEASES
1. Infectious diseases
2. Dermatologic problems
3. Routine pediatric problems
4. Routine gynecologic problems
5. Psychosocial problems
6. Hypertension
7. Asthma
8. Diabetes
