DESCRIPTION: With changes in how health care is supplied and renewed educational focus on ambulatory care, many undergraduate students are not exposed to the complexities or the subtleties of Inpatient Gynecologic Care. This elective is specifically for the student who desires intense exposure to a busy operative Gynecologic Inpatient Service. Because of the high surgical volume and the patient mix at this world-renowned tertiary referral center, the student will have the opportunity to observe the full range of operative gynecologic procedures performed for the management of benign disease processes, as well as participate in the care of numerous patients undergoing such procedures.
