ON-CALL SCHEDULE & WEEKEND ACTIVITIES: Westwood Transitional Village and Samoshel: 9:00 a.m. – Noon clinic on Saturdays. Additional clinic sites may be added during the week.

ADDITIONAL COMMENTS AND OTHER SPECIAL REQUIREMENTS: For further information, access the website at: www.medsch.ucla.edu/fammed/students.sac2. Applicants for this honor elective must demonstrate prior involvement in SRHC and submit an application (available online: http://fm.mednet.ucla.edu/sac2/default.htm). Chiefs will be concurrently enrolled in FP250.03. Student Chiefs and the Clinic Director will be expected to arrange coverage of the various responsibilities outlined above. They will meet with the course chairman in order to make decisions about managing the clinic and leading the course.

STUDENT OBJECTIVES (in order of importance)

Student Chiefs will:
1. Have the opportunity to practice the skills involved in managing a free clinic, including: planning clinic budget and purchases, managing patient records, medication stocks, clinic schedule and personnel, patient flow, child immunization program, and coordination of the health care team under the supervision of attending faculty.
2. Become familiar with the unique challenges of providing health care to an underserved population.
3. Gain insight into the role of patient advocacy, leadership, and teaching in one’s career as a physician.
4. Demonstrate skill and cognitive proficiency in the management of common medical problems and preventative health needs of underserved populations.
5. Have the opportunity to practice medical “precepting” and teaching in the clinical environment.

DESCRIPTION:
The UCLA Student Run Homeless Family Clinics are managed and staffed by UCLA students with volunteer faculty supervision. Working with the faculty, Student Chiefs oversee clinic sessions and evening seminars, manage the clinic schedule, patient flow, medical records, and medical formulary and supplies and provide teaching and mentoring to the junior students. Student Chiefs thus have the opportunity to hone their leadership and teaching skills while obtaining practical training in practice management. Each Student Chief has primary responsibility for at least one of the major administrative functions of the clinic or its programs, which include educational innovation and community outreach.

PREREQUISITES: Special selection process by outgoing Student Chiefs.

AVAILABLE FOR EXTERNS: No

STUDENTS / PERIOD: max 14 min 6

DURATION: Longitudinal Total 2 weeks of credit.

2009-2010 ROTATIONS BEGIN WEEKS: March 2008

REPORT TO:
Dr. Marfisee, Time and Place TBA

ON-CALL SCHEDULE & WEEKEND ACTIVITIES: Westwood Transitoinal Village and Samoshel Shelter: 9:00 a.m. – 12:00 p.m. clinic on Additional clinic sites may be added during the week.

ADDITIONAL COMMENTS AND OTHER SPECIAL REQUIREMENTS: Requirements include: 1) attendance at October orientation; 2) participation in a minimum of 7 clinics; 3) Conduct 1 evening seminar; 4.) Attendance at wrap-up session.

DESCRIPTION: The Student Run Homeless Family Clinic is managed and staged by UCLA medical students with volunteer faculty supervision under the aegis of the Department of Family Medicine. Students will receive a one-week elective pass/fail credit. The Westwood clinic is located at Salvation Army Transitional Family Housing and has a large pediatric population and the child immunization program. “Samoshel” is located in Santa Monica and serves a homeless adult population. Additional sites may be added during the winter months.

COURSE OBJECTIVES (in order of importance)
1. Become familiar with the psychology, motivation, and dynamics underlying addiction and the impact on the addicted individual and his or her family.
2. Acquire an understanding of the principles of addiction treatment.
3. Develop an appreciation for group therapy and peer support as therapeutic tools.
4. Gain insight into the experience of patients undergoing treatment for addiction.

DURATION:  1 week

2009-2010 ROTATIONS BEGIN WEEKS:  By Arrangement

DESCRIPTION:  This is an intense, high-volume clinical experience offered once a year at a free clinic in Falmouth, Jamaica. Falmouth is a locally impoverished region only 30 miles from Montego Bay. The population of the city and surrounding countryside has a high rate of chronic illness, including diabetes, hypertension, heart disease, asthma, and related complications. They also suffer from infections and skin conditions found more commonly in the tropics. Students will provide patient care under direct attending supervision. In addition, students will be responsible for preparing a scholarly project related to the clinical experience and attend a minimum of four (4) of the dinner seminars on cross-cultural medicine and international health topics offered as curriculum and preparation for the experience.

DURATION:  
Longitudinal. (1 week of credit will be awarded)

2009-2010 ROTATIONS BEGIN WEEKS:  
Orientation TBA. January 4, 2010 is the last day to add.

DESCRIPTION:  
Students will be working at a community facility located in Koreatown where the majority of the patients are low income, monolingual immigrants from Korea and Latin America with no or limited health insurance coverage. This clinic provides in-depth patient education, referral information, and counseling regarding health care needs to those who are receiving or have received care from other facilities but are looking for additional help in understanding their care and assistance in navigating the health care system. This is not a primary health care clinic. Patients are referred back to their regular providers or to other appropriate practitioners or programs. Occasionally, direct medical services (e.g., blood pressure, diabetes & cholesterol screenings) are provided on an as needed basis. Under the close supervision of the attending physician, students are expected to perform pertinent history and physical examination and apply their clinical skills to derive accurate diagnoses and appropriate treatment plans. They are also expected to apply their counseling and communications skills to provide information in ways that the patient with limited English can adequately understand. Most of the non-English speaking patients will speak Korean or Spanish. Interpretation services may be provided at many of the sessions, but cannot be guaranteed.

STUDENT EXPERIENCES

ON-CALL SCHEDULE & WEEKEND ACTIVITIES: Student will attend a local high school Junior Varsity and Varsity football game one evening a week with a family practice attending and residents.

ADDITIONAL COMMENTS AND OTHER SPECIAL REQUIREMENTS: This elective is designed specifically for students with a career interest in family medicine. Lunch and parking is provided each day.
COURSE OBJECTIVES (in order of importance)
1. Exposure to the breadth and depth of specialty training in family medicine.
2. Deepen understanding of the care of the medically uninsured or underinsured populations.
4. Ob-Gyn rotation: exposure to maternity and general women’s health including labor and delivery, surgical obstetrics and ultrasound.
5. Outpatient Pediatrics rotation: exposure to general and specialty children’s health.
6. Surgery rotation: exposure to care of surgical patients including assisting in operations as well as pre and post operative care.
9. Deepen understanding of the care of the patient as a whole person including disease prevention, emotional health and chronic disease management.
10. Broaden exposure to culturally diverse populations.

DESCRIPTION: Medical Students participating in the Outpatient Family Medicine Clerkship will spend the majority of the rotation at the Family Practice Center where over 15,000 patients, of a largely lower income population, are seen each year. 7 full-time faculty, additional part-time faculty and over 100 community physicians are involved in teaching. Students see patients with the faculty and residents, attend tutorials with the nutritionist, participate in Podiatry, Dermatology, Neurology and Sports Medicine clinics, and attend daily educational conferences on a variety of topics. Northridge Family Practice Center is located less than 20 miles from UCLA (about 25 minutes away).

REPORT TO:
- Morning Report - Patio Conf. Room @ Northridge Hospital Med Ctr, Basement Level. Contact coordinator for more info.

PREREQUISITES: Medicine and Surgery

AVAILABLE FOR EXTERNS: Yes

STUDENTS / PERIOD: max 1* min 1

DURATION: 3 weeks

2009-2010 ROTATIONS BEGIN WEEKS:
- 2, 5, 8, 11, 14, 17, 20, 27, 30, 33, 36, 39, 42, 45, 48

DESCRIPTION: Northridge Hospital is a 450-bed community hospital with a 30-bed intensive/coronary care unit. The student will be part of the family medicine service in the setting of a Family Medicine Residency. Subinterns will have direct patient care responsibility. Scheduled teaching will be under the supervision of general and subspecialty internal medicine and surgical faculty and the Family Medicine faculty.

STUDENT OBJECTIVES (in order of importance)
1. Expand knowledge base of disease processes.
2. Improve history and physical examination skills.
3. Refine ability to formulate and present patient problems.
4. Use discrimination in the application of various diagnostic and therapeutic modalities.
5. Improve proficiency in diagnostic and treatment related procedures.
6. Appreciate the follow-up of the hospitalized patient in the office setting.
7. Define the need and value of consultation.
