REPORT TO: Room 24-153 CHS at 8:30 a.m.

PREREQUISITES: Medicine, Surgery and Ob/Gyn

AVAILABLE FOR EXterns: Yes

STUDENTS / PERIOD: max 1 min 1

DURATION: 3 weeks

2009-2010 ROTATIONS BEGIN WEEKS:  
2, 5, 8, 11, 14, 17, 20, 27, 30, 33, 36, 39, 42, 45, 48

DESCRIPTION: This in-depth elective is designed for 4th year medical students with basic knowledge of Obstetrics and Gynecology. It will provide the necessary information to understand the many complex issues encountered in Reproductive Endocrinology and Infertility Services, including various androgen excess, ovulatory dysfunction, menstrual disorders, menopause, fertility counseling, and advanced reproductive technology treatment, such as in vitro fertilization and sperm microinjection.

COURSE OBJECTIVES (in order of importance):
1. To gain an understanding of the basic concepts involved in reproductive endocrinology and infertility.
2. To gain insight into the pathophysiologic processes involved in reproductive endocrinology and infertility.
3. To gain knowledge in the management of patients with various reproductive endocrinology disorders.
4. To gain exposure to the various aspects of the assisted reproductive technologies including ultrasound, in vitro fertilization, ovulation induction, and intrauterine insemination.
5. To provide an introduction to the in vitro fertilization and andrology laboratories.
6. To become actively involved in conferences including oral presentations, case and group discussions.
7. To provide an opportunity for research in both basic science and clinical projects.

STUDENT EXPERIENCES  
COMMON PROBLEMS/DISEASES  
1. Infertility  
2. Ovulatory Dysfuction  
3. Menopause  
4. Androgen Excess  
5. Menstrual Disorders  
6. Contraception  
7. Galactorrhea  
8. Endometriosis

DESCRIPTION: This clerkship provides an opportunity to work as a member of the Gynecologic Oncology service in the capacity of an intern with emphasis on primary patient care. 

COURSE OBJECTIVES (in order of importance) 
1. To become familiar with the diagnosis, staging, and management of gynecologic malignancies. 
2. To understand the pathophysiologic process in the clinical and histologic settings of the major gynecologic malignancies. 
3. To actively participate on the oncology team in all aspects of primary patient care, admission, evaluation, orders, surgery, and management. 
4. To become proficient in the written and oral presentation of patients with multiple problems. 
5. To become familiar with historical and current concepts of cancer therapy; surgery, chemo, radiation, and most importantly—prevention. 
6. To improve knowledge of pelvic anatomy by observing radical surgery.

2, 5, 8, 11, 14, 17, 20, 27, 30, 33, 36, 39, 42, 45, 48

**DESCRIPTION:**

This is a rotation for students who wish to deepen their knowledge of gynecology and particularly gynecologic surgery. This rotation will be in depth but broad experience on the gynecology service at our institution. The 4th year student will work both with Gynecologic Oncology service as well as with the Urogynecology service. Covering both specialty clinics and working with the team in the operating room, the student will improve their clinical diagnostic and therapeutic skills.

STUDENT COORDINATOR: Michael Zois (310) 423-1036
E-MAIL: zoism@cshs.org

REPORT TO: Fay Shapiro, 8700 Beverly Blvd., Los Angeles, Calif., 90048 at 9 am Room 3622

PREREQUISITES: Obstetrics and Gynecology (6 weeks)

AVAILABLE FOR EXterns: Yes

STUDENTS / PERIOD: max 1 min 1

DURATION: 3 weeks

2009-2010 ROTATIONS BEGIN WEEKS:
2, 5, 8, 11, 14, 17, 20, 27, 30, 33, 36, 39, 42, 45, 48

DESCRIPTION: This is a course that exposes the student to general obstetrics and gynecology. The student will rotate through obstetrical services including labor and delivery, the gynecological services, and ambulatory clinics. There will be one call day. This rotation is designed to prime and prepare the student for an OBGYN internship. Medical students interested in an OBGYN residency are encouraged to experience this course.

STUDENT EXPERIENCES

COMMON PROBLEMS/DISEASES
1. Normal labor
2. Complicated labor
3. Hysterectomy
4. Laparoscopy
5. Prenatal care
6. Pap smear
7. Fibroids
8. Menstrual disorders

INPATIENT: 66%
OUTPATIENT: 34%
CONSULTATION: 0%
PRIMARY CARE: 100%

STUDENTS / PERIOD: max 1 min 1

DURATION: 3 weeks

2009-2010 ROTATIONS BEGIN WEEKS: By Arrangement

DESCRIPTION: This elective is for students who are interested in a broader view of women’s health. The goal is to direct the students’ attention to issues in women’s health (such as barriers to access to care) by caring for women who have only episodic access (Urgent Care Clinic) or access through special categorical programs (Family Planning). The full range of ages of women, from reproductive through menopausal aged women, will be cared for. Students will have primary responsibility for the assessment of the patient and the development of management plans. Students will have ongoing daily contact with faculty, fellows, and residents, and will be expected to contribute to the weekly formal didactic sessions.
