### COURSE OBJECTIVES (in order of importance)

1. Knowledge of the pathogenesis and pathophysiology of common GI diseases.
2. Practical experience in the orderly evaluation and problem orientation of hospitalized patients referred for GI consultation, responding to the consultation request.
3. Knowledge of the principles of management of common GI problems with practical application of physiologic principles in a patient-oriented setting and active participation in follow-up care.
4. Familiarity with the histopathology and radiologic abnormalities of GI diseases.
5. Familiarity with GI endoscopic procedures (sigmoidoscopy, biopsy, gastroscopy, ERCP, colonoscopy, polypectomy), endoscopic findings, and the indications for endoscopy.
6. Experience with critical literature review in gastroenterology.

### DESCRIPTION:
This course is an introduction to gastrointestinal and liver diseases. Students will perform consultations, discuss patients at rounds, have didactic sessions and will be able to observe GI disorders.

3, 6, 9, 12, 15, 18, 21, 27, 30, 33, 36, 39, 42, 45, 48

DESCRIPTION:  This course will provide a wide range of experience in evaluating and treating patients with fever and infectious diseases. Olive View’s unique patient population and the variety of disease conditions seen will provide a stimulating clerkship environment. In addition to standard infectious disease problems, the student has the opportunity to see patients with "tropical" infections (malaria, typhoid fever, brucellosis, parasitic infections) not commonly seen in the U. S. Instruction in the outpatient and inpatient management of HIV infection is also emphasized. Olive View has one of the busiest AIDS clinics in the UCLA system. A busy conference tutorial schedule and the faculty commitment to teaching ensures that students will have opportunity to supplement their clinical experiences with an organized educational program.

APPROXIMATE # OF PATIENTS EVALUATED EACH WEEK BY STUDENT: 3 - 5
TOTAL # OF PATIENTS EVALUATED EACH WEEK BY ENTIRE SERVICE: 15 - 20

TYPICAL WEEKLY SCHEDULE

ON-CALL SCHEDULE & WEEKEND ACTIVITIES: Weekends off

ADDITIONAL COMMENTS AND OTHER SPECIAL REQUIREMENTS: The work-up of an infectious disease problem sharpens clinical skills in that it involves rigorous examination of the patient's complete medical condition. The question most commonly asked of us is: "What antibiotic should I use?" But the question that we ask ourselves is: "What is the disease?"

                 E-MAIL: afrazier@mednet.ucla.edu

REPORT TO:
Dr. Christopher B. Cooper, 37-131 UCLA (Pulmonary Div. Office)

COLLEGE AFFILIATION:  Urban Underserved

AVAILABLE FOR EXternS:  Yes
STUDENTS / PERIOD:  max  50 min  6
DURATION:  3  weeks
2011-2012 ROTATIONS BEGIN WEEKS:  12, 30

DESCRIPTION:  The combined objectives of this course aim to refine diagnostic skills so that the student can develop a focused differential diagnosis based on recognition of physical findings, laboratory or radiographic features. Each morning will commence with a review of 20 clinical slides showing characteristic physical findings. Differential diagnosis will be discussed. Examination of the four major organ systems will be demonstrated by one of the faculty with emphasis on refinement of examination technique to increase its value. Then students will encounter patients with abnormal physical findings and have the opportunity to refine and demonstrate their examination techniques.

COMMON PROBLEMS/DISEASES
1. Cardiovascular
2. Respiratory

ON-CALL SCHEDULE & WEEKEND ACTIVITIES:  None

ADDITIONAL COMMENTS AND OTHER SPECIAL REQUIREMENTS:  Students will need white coats for encounters with patients. Bring a stethoscope to sessions. Bring a tendon hammer and ophthalmoscope only if you already have them.
ME250.06  PROCEDURE SERVICE

Advanced Clinical Clerkship  Location: CS  2011-2012  Revised: 12/7/09

COURSE CHAIR:    PHONE #:    COURSE OBJECTIVES (in order of importance)
Philip Ng, M.D.    (310) 423-1763
E-MAIL: philip.ng@cshs.org

1. Understanding the importance of and the construction of
   wide sterile barrier technique during central line placement.

SUPPORTING FACULTY:
Drs. Claude Killu, Mark Ault, Karl Wittnebel

2. The use of ultrasound guidance for procedures.

STUDENT COORDINATOR:    PHONE #:   
Judy Jacobs    (310) 423-4658
FAX: 310-423-5200
E-MAIL: judith.jacobs@cshs.org

3. Practicing sharps safety and aseptic technique during proce-
   dures.

REPORT TO: at 9am on the 1st day to Becker 116

4. Development of a working knowledge base and familiarity of
   various forms of vascular access devices.

COLLEGE AFFILIATION: Urban Underserved

5. Become comfortable in the troubleshooting and ongoing
care of various vascular access devices.

AVAILABLE FOR EXTERNALS: Yes

STUDENT EXPERIENCES

DURATION: 3 weeks

2011-2012 ROTATIONS BEGIN WEEKS:
3, 6, 9, 12, 15, 18, 21 (only)

DESCRIPTION: Because the Procedure Center provides various services to a wide range of patients, involvement and participation in
these activities can be tailored to the individuals’ interests. Some of the services and procedures are as follows: PICCs (Peripherally
Inserted Central Catheters), PAS ports (Peripherally Accessed Subcutaneous ports), Tunneled Catheters (Hickman, Perm-a-caths),
Central Catheters, Swan Ganz Catheters, Arterial catheters, Thoracentesis, Paracentesis, Lumbar Punctures, Conscious Sedation,
Flexible Sigmoidoscopy, Percutaneous Tracheostomy, Bone Marrow Biopsy

COMMON PROBLEMS/DISEASES
1. Sepsis
2. Renal Failure
3. Solid/Hematologic Cancers
4. Other Indications for central renal access.

ON-CALL SCHEDULE & WEEKEND ACTIVITIES: None

ADDITIONAL COMMENTS AND OTHER SPECIAL REQUIREMENTS: Procedures begin between 8:00 to 8:30 am and usually wind down
after 5:00 pm Monday through Friday. In addition to developing the technical skill required for procedures, there is a heavy emphasis on
understanding anatomy, indications and contraindications of procedures, and trouble-shooting catheter related issues. Please bear in
mind that the Procedure Center/PICC Service workload rests on the attendings’ shoulders and students rotating on the service should
not feel they are on service as a labor source.

AVAILABLE FOR EXTERNALS: Yes  
STUDENTS / PERIOD: max 3 min 1  
DURATION: 3 weeks  
2011-2012 ROTATIONS BEGIN WEEKS: By Arrangement  

DESCRIPTION: This clerkship provides an introduction to PM&R through supervised clinical experience. Patients will be examined and treatment programs carried out under supervision of the Rehabilitation Medicine Staff. An introduction to Electromyography, brace, prosthetic and wheelchair prescriptions, and cardiac rehabilitation are all included.

COURSE OBJECTIVES (in order of importance)  
1. Clinical skill in history taking and physical examination.  
2. Knowledge of disease process in stroke, amputation, low back and other musculoskeletal, neuromuscular, and chronic pain syndrome.  
3. Medical judgment in management of the disabled patient.  
4. Utilization of the health care team.  
5. Functional evaluation.  
6. Interpretation of tests: Electromyography, bone and joint x-rays.  
7. Basic science: principles of physiology and anatomy correlated with clinical problems.
