

Are you a first-year medical student who wants a rich summer research experience that also provides some clinical opportunities?

Consider:

The 2010 Medical Student Training in Aging Research (MSTAR) Summer Program
sponsored by NIH/AFAR & Lillian R. Gleitsman Program at UCLA

- 8-12 week mentored research experience with a top expert in aging related research.
 - Basic science
 - Clinical epidemiology
 - Health services research
 - Prestigious national program with training site here at UCLA.
 - 283 students have participated
 - Funded by NIH and several philanthropists.
 - Weekly clinical experiences in geriatrics.
 - Present your research at the national meeting of the American Geriatrics Society in May, 2011 (Baltimore, Maryland).
 - Generous stipend (\$445 per week) plus additional money for research paper.
 - Guided help in selecting research topics. If you have a topic in mind we can also guide you towards a mentor with the same interest.
- 

More information and application: <http://www.afar.org/medstu.html>

Deadline: February 5th, 2010

If you want to apply or have any questions please contact Dr. Alison Moore or Robin

Catino ASAP at 310-825-8253 or aamoore@mednet.ucla.edu or rcatino@mednet.ucla.edu
