ON-CALL SCHEDULE & WEEKEND ACTIVITIES: None

ADDITIONAL COMMENTS AND OTHER SPECIAL REQUIREMENTS: The student will spend two afternoons half-days in the HIV Psychiatry Clinic under the direct supervision of the attending psychiatrist, plus 1 – 1/2 hours /week of individual supervision. The remainder of the time will primarily be spent on the inpatient C/L Service, under the supervision of the attending and third-year psychiatry residents. The student will also attend two seminars each week with the psychiatry residents, and the Grand Rounds for the Department of Psychiatry.

ON-CALL SCHEDULE & WEEKEND ACTIVITIES: One evening per week in the Psych. ER

ADDITIONAL COMMENTS AND OTHER SPECIAL REQUIREMENTS: Additional opportunities include participation in group and family therapy sessions as well as chances to attend mental health court to observe court testimony and forensic psychiatric evaluations. There is a focus upon diagnostic workups and biological interventions within a psychosocial and sociocultural framework. The psychiatry modules are richly staffed inpatient units with a multidisciplinary team, including attending psychiatrist, two psychiatric residents, and a full complement of nursing, psychology, social work and occupational therapy staff.

DESCRIPTION: This is an excellent opportunity to experience a multidisciplinary, integrated approach to the care of psychiatric patients. Non-UCLA externs may elect to participate for periods greater than three weeks as conforms with your institution’s schedule. The South Unit is a 14-bed unit with length of stay approximately 7-10 days. There is also a 24-bed unit on 8 West with the same 7-10 days length of stay. Students electing this advanced clerkship will be assigned to a specific team, and will have an opportunity to work independently with patients suffering from a wide variety of psychiatric disorders under direct supervision of the attending. (Please see additional comments below.)

ADDITIONAL COMMENTS AND OTHER SPECIAL REQUIREMENTS: Inpatient ward responsibilities as assigned in Resnick Neuropsychiatric Hospital Adolescent Unit.
COURSE OBJECTIVES (in order of importance)

1. To acquaint students with interview approaches to medically ill patients in a variety of settings using the biopsychosocial model.

2. To engage in effective interactions with a variety of consulting services by learning to define the consultation question and to accurately report findings and recommendations.

3. Learn effective documentation skills for a psychiatric consultation note.

4. Learn a variety of therapeutic interventions used to evaluate and treat mentally ill patients including pharmacotherapy, behavioral psychotherapy, and psychoeducation.

5. Appreciate the psychological components of medical illness.

6. Gain experience in performing specialized psychiatric assessments for specific populations including solid organ transplant candidates, chronic and acute pain patients, behaviorally disturbed patients, cross-cultural patients, somatoform patients and victims of trauma.

7. Gain experience in performing psychiatric consultations to a general Emergency Medical Center.

8. To increase student’s knowledge about psychometric testing.

ON-CALL SCHEDULE & WEEKEND ACTIVITIES: None

ADDITIONAL COMMENTS AND OTHER SPECIAL REQUIREMENTS:

DESCRIPTION: This elective will provide flexibility in developing a custom-designed experience that includes a variety of psychiatric experiences at Cedars-Sinai Medical Center. Available experiences include inpatient, outpatient, consultation-liaison, emergency psychiatry, substance abuse, child psychiatry, Sexual Medicine, Intensive Short Term Dynamic Psychotherapy, ECT, and psychiatric research. Exposure to more clinical activities could be arranged according to the medical student interests. Major emphasis is placed on the Bi-OpsychoSocial evaluation and treatment of psychiatric patients regardless of the setting. A three-to-six week rotation offered year-round. Prerequisite: clerkship in psychiatry.

STUDENT OBJECTIVES (in order of importance)

1. Improve ability to take a psychiatric history, perform a mental status exam, and generate a DSM-IV differential diagnosis.
2. Develop an understanding of the course of an extended evaluation, including manifestations of resistance to treatment and difficulties.
3. Obtain knowledge of short-term psychotherapy.
4. Improve knowledge of typical psychiatric out-patient problems.
5. Improve knowledge of psychopharmacology.
6. Skill in working on a multidisciplinary outpatient health care team, including social workers and psychologists.
7. Improve ability to obtain and write outpatient histories. Medical student’s histories are documents of record for their patients.
8. Skill in presenting patients to members of our health care team.
9. Exposure to psychiatric ER rotations via night on-call with resident.

DESCRIPTION: This advanced level elective offers an introduction to the rapid assessment and effective management of psychiatric and behavioral problems experienced by patients with significant medical or surgical illness in the medical ambulatory clinic. Students are integral members of the C/L team, and learn to apply a Bio-psychosocial approach to evaluation of psychiatry problems in that setting (including mood, psychosis, anxiety, cognition, substance abuse, and personality disorders. Management of these problems includes both pharmacological and non-pharmacological approaches (supportive therapy, crisis intervention, cognitive-behavioral and insight-oriented psychotherapy.) A three- to six-week elective, Sepulveda V.A. Medical Center. Prerequisites: Clerkships in Psychiatry and medicine.

ADDITIONAL COMMENTS AND OTHER SPECIAL REQUIREMENTS:
DESCRIPTION: The Psychosomatic Medicine / C&L service at Olive View-UCLA Medical Center provides inpatient psychiatric evaluations to Medical, Surgical, Pediatrics and Ob/Gyn departments. The scope of services include psychiatric diagnostic evaluations using biopsychosocial approach; management of agitation and behavioral problems; treatment of anxiety, mood disorders and psychosis; capacity evaluations, and provide assistance to primary medical teams to apply for power 3200 and probate conservatorship. HIV Psychiatry Clinic provides biopsychosocial evaluations and treatment to patients with HIV/AIDS and co-morbid psychiatric disorders. Also assess suicide risk in newly diagnosed HIV patients and provide psychoeducation and supportive therapy to patients.

COURSE CHAIR: Barry H. Guze, M.D  PHONE #: (310) 825-0569  
E-MAIL: bguze@mednet.ucla.edu

SUPPORTING FACULTY: Laurie Casaus, M.D., Phil Cogen, M.D., and Aaron Kaufman, M.D.

STUDENT COORDINATOR: Carla Vera  PHONE #: (310) 206-5110  
E-MAIL: cvera@mednet.ucla.edu

REPORT TO: Barry Guze, M.D., Resnick Neuropsychiatric Hospital, 150 Med Plaza, Room #4122 at 8:30 AM

COLLEGE AFFILIATION: Urban Underserved

AVAILABLE FOR EXTERNS: Yes

STUDENTS / PERIOD: max 1 min 1

DURATION: 3 weeks

2011-2012 ROTATIONS BEGIN WEEKS: 2, 5, 8, 11, 14, 17, 20, 27, 30, 33, 36, 39, 42, 45, 48

DESCRIPTION: In this advanced clinical clerkship the student will function as a sub-intern under faculty and chief resident supervision. Clinical activities will occur on the Adult Psychiatry Inpatient wards and the Adult Partial Hospital Program. Sub-intern will be responsible for all aspects of patient care, from admission to discharge. All clinical activity will be supervised via individual meetings and daily rounds with faculty and chief residents.

COURSE OBJECTIVES (in order of importance)
1. Student will workup at least three new patients per week and 12–30 per rotation.
2. Student will actively participate in the on-going care of the patient.
3. Student will learn how to treat significantly ill/complex patient cases in diverse patient populations.
4. Student will have substantial or primary patient care responsibility.
5. Acquisition of knowledge of the psychopathology and phenomenology of serious psychiatric disorders in adults.
6. Development of skills and knowledge in the evaluation, diagnosis, treatment, and disposition of hospitalized psychiatric patients.
7. Progress in medical record-keeping abilities including comprehensive history, examinations, plans, progress notes, discharge summary, and multi-axial diagnostic formulation.
8. Acquisition of advanced knowledge of therapeutic modalities, such as pharmacotherapy and ECT.

COMMON PROBLEMS/DISEASES
1. Unipolar depression
2. Bipolar disorder
3. Schizophrenia
4. Organic mental disorders
5. Anxiety disorders
6. Adjustment disorders
7. Personality disorders

ADDITIONAL COMMENTS AND OTHER SPECIAL REQUIREMENTS:

DESCRIPTION: The clinical focus of the Schizophrenia Treatment Unit is on the management of inpatient veterans with psychotic disorders, typically refractory schizophrenia. Clinical interventions including psychopharmacology, group therapy, and supportive individual therapy. We also treat a variety of major mental illnesses including bipolar disorder, major depression, PTSD, and substance abuse. Sub-interns will be assigned a caseload of patients and assume primary responsibility of their clinical management. Opportunities will also be available for involvement in clinical research and exposure to outpatient treatment.

COURSE OBJECTIVES (in order of importance)
1. Develop an understanding of and familiarity with individuals with psychotic disorders and other severe mental illness
2. Develop a working knowledge of evidence based therapies for severe mental illness including both pharmacotherapies and psychotherapies.
3. Demonstrate skill in psychiatric interviewing techniques
4. Demonstrate skill in psychiatry differential diagnosis
5. Gain experience working with a multidisciplinary inpatient team

**DESCRIPTION:** This elective provides an overview of how to identify and manage patients with substance use disorders. Students will function as a sub-intern on the inpatient substance abuse service. Duties will include care of patients admitted for detoxification, management of co-occurring psychiatric disorders and assisting in developing an aftercare program. Students will also participate in the outpatient, Addiction Medicine Clinic to learn techniques of psychopharmacological management of addictive disorders. Finally, students will visit residential treatment facilities, sober living homes and drug courts to gain a full appreciation of the clinical management of patients with substance use disorders.
