STUDENTS / PERIOD: max 1 min 1

DURATION: 3 weeks

2013-2014 ROTATIONS BEGIN WEEKS: 5, 8, 11, 14, 17, 20, 27, 30, 33, 38, 41, 44, 47

DESCRIPTION: Students will assume responsibilities similar to those of an intern rotating on the PICU service. The student will be a member of the PICU team, comprised of pediatric house staff and attending pediatric intensivists. Participation in the teaching program will be required, with the student presenting and discussing critically ill patients on a regular basis.

**ADDITIONAL COMMENTS AND OTHER SPECIAL REQUIREMENTS:** Parking is provided. Details during first day orientation in the Center for Medical Education. After first day of orientation and security clearance report to the PICU. This located on the 5th floor of the hospital, section 5300.
**Description:**
The pediatric intensive care unit (PICU) at UCLA is an 18-bed multidisciplinary intensive care unit. The PICU Service follows all patients in the PICU often with multiple other medical and/or surgical services involved. The service consists of one faculty member, one PICU fellow, two senior pediatric residents, one emergency medicine resident, and one anesthesia resident, in addition to the medical student(s) on the team.

**Office Hours & Weekend Activities:**

**On-call Schedule & Weekend Activities:** One night call per week. On weekends, the student is expected to round on his/her patients, provide daily care, write daily notes, and then may check out to senior resident.

**Additional Comments and Other Special Requirements:** The student will be the direct care provider to a wide range of critically ill children. This will entail extremely close interaction with PICU faculty and fellows, with ample time for 1:1 teaching.

COURSE OBJECTIVES (in order of importance)
1. Experience in the primary management of complicated neonatal disease as a member of the NICU team.
2. Techniques of management of tiny premature infants, infants with RDS and other lung disease, infants with sepsis, post-surgical neonatal management, and neonatal asphyxia.
3. Knowledge of approaches to neonatal nutrition.
4. Experience participating in neonatal transport.
5. Experience in performing umbilical artery catheterization, spinal taps, intubations, chest tubes, and other procedures in newborns.
6. Experience in interacting with parents with sick infants.
7. Experience in delivery room resuscitation techniques.
8. Experience in dealing with the complex ethical issues that surround the care of the tragic infant.
9. The opportunity to integrate complicated obstetric and neonatal histories.
