REPORT TO: Harbor-UCLA M.C., Bldg. 1 South, Room 19 at 8:30 a.m.

COURSE OBJECTIVES (in order of importance)

1. Biopsychosocial approach to the medically ill.
2. Improved psychiatry evaluation in the medically ill.
3. Diagnosis of complex psychiatric disorders.
4. Knowledge of DSM-IV.
5. Knowledge of psychotropic medication in the medically ill.
6. Psychiatric syndromes/toxicities related to medications.
7. Multidisciplinary approach to the medically and psychiatrically ill.
8. Improved doctor-patient relationship.
9. Oral presentations.
10. Medical record keeping.
11. Knowledge of psychometric testing.

COLLEGE AFFILIATION: Academic Medicine

AVAILABLE FOR EXTERNS: Yes

STUDENTS / PERIOD: max 1 min 1

DURATION: 3 weeks

2013-2014 ROTATIONS BEGIN WEEKS:
By Arrangement

DESCRIPTION: The HIV Psychiatry Service at Harbor-UCLA Medical Center is an outpatient consultative service which evaluates adults in all stages of HIV infection. A variety of psychiatry disorders are seen. Emphasis is placed on evaluating biological, psychological, and social factors manifesting in psychiatric disorders. The Psychiatric Consultation/Liaison Service is an inpatient service that evaluates patients hospitalized for medical/surgical treatment. Emphasis is placed on understanding the influence of chronic psychiatric conditions on medical care, the psychiatric conditions that may be associated with medical conditions, and the use of psychotropics in the medically ill.

Location: UCLA

2013-2014
Revised: 12/10/12

COURSE CHAIR:
John Luo, M.D.

PHONE #:
(310) 206-5448

COURSE OBJECTIVES (in order of importance)

1. To acquaint students with interview approaches to medically ill patients in a variety of settings using the biopsychosocial model.
2. To engage in effective interactions with a variety of consulting services by learning to define the consultation question and to accurately report findings and recommendations.
3. Learn effective documentation skills for a psychiatric consultation note.
4. Learn a variety of therapeutic interventions used to evaluate and treat mentally ill patients including pharmacotherapy, behavioral psychotherapy, and psychoeducation.
5. Appreciate the psychological components of medical illness.
6. Gain experience in performing specialized psychiatric assessments for specific populations including solid organ transplant candidates, chronic and acute pain patients, behaviorally disturbed patients, cross-cultural patients, somatoform patients and victims of trauma.
7. Gain experience in performing psychiatric consultations to a general Emergency Medical Center.
8. To increase student's knowledge about psychometric testing.

DESCRIPTION: The UCLA Consultation & Liaison Service is an inpatient consultation psychiatry service that provides psychiatric evaluations to the Ronald Reagan UCLA Medical Center. The service provides focused consultations to medical and surgical services for urgent and routine matters. The service consists of 3-4 resident physicians, a psychologist, a psychiatric social worker and multiple faculty members with expertise in various aspects of Consultation/Liaison Psychiatry. The service also provides consultations to the Emergency Medical Center that is a major trauma center for large urban hospital. The scope services includes capacity to consent to or refuse medical treatment, pain management, pre-surgical evaluation for solid organ transplant candidates, post-operative follow-ups for acute behavioral disturbances, mood and anxiety disorders in a teaching hospital.

DURATION: 3 weeks

2013-2014 ROTATIONS BEGIN WEEKS:
2, 5, 8, 11, 14, 17, 20, 27, 30, 33, 38, 41, 44, 47

- COURSE OBJECTIVES (in order of importance)**
1. Signs and symptoms, differential diagnosis, psychodynamics, psychophysiology, epidemiology, and psychiatric behavioral "conditions" most commonly encountered in medical settings.
 2. Indications, contraindications, dosage, and side effects of psychotropic medications for conditions described above.
 3. Describe indications and contraindications for nonpharmacological treatment of conditions described above, including: (a) Individual, long-term psychotherapy; (b) Family Therapy; (c) Crisis Intervention; (d) Intervention by non-psychiatric medical personnel; (e) Behavior therapy; (f) Cognitive Therapy; (g) Relaxation Training; (h) Interpersonal and insight-oriented therapy.
 4. Demonstrate ability to collect information from the patient, from the medical chart, from the referring physician, and from relevant other sources. Developing psychiatric interviewing skills specific to the medical ambulatory consultation setting.
 5. Describe influence of psychological and social variables on the predisposition, onset, course, and outcome of "somatic" illness.
 6. Describe common patterns of psychological and social adaptation to illness.

DESCRIPTION: This advanced level elective offers an introduction to the rapid assessment and effective management of psychiatric and behavioral problems experienced by patients with significant medical or surgical illness in the medical ambulatory clinic. Students are integral members of the C/L team, and learn to apply a Bio-psychosocial approach to evaluation of psychiatry problems in that setting (including mood, psychosis, anxiety, cognition, substance abuse, and personality disorders). Management of these problems includes both pharmacological and non-pharmacological approaches (supportive therapy, crisis intervention, cognitive-behavioral and insight-oriented psychotherapy.) A three- to six-week elective, Sepulveda V.A. Medical Center. Prerequisites: Clerkships in Psychiatry and medicine.

2, 5, 8, 11, 14, 17, 20, 27, 30, 33, 38, 41, 44, 47

COURSE OBJECTIVES (in order of importance)

1. Expose students to a wide range of neuropsychiatric presentations in medical surgical patients
2. Teach concise interviewing skills and differential diagnostic formulation.
3. Examine the impact of illness, hospitalization and medical care on the psychological functioning of patients
4. Educate students about the role of psychiatric, psychological, and behavioral factors in the pathogenesis of medical disorders
5. Promote liaison relations with medical and surgical services, and increase awareness of mental disorders in medical patients.
6. Demonstrate appropriate approaches to the execution of a psychiatry consultation, with emphasis on assessment techniques unique to the consultation setting, the nature of communication with the consulting team and the responsibilities and limitations of the consultant.
7. Demonstrate a variety of interventions and therapies relevant to medically ill patients, including time-effective psychotherapy, behavioral techniques, and multidisciplinary team approaches.
8. Learn capacity assessment for medical decision-making. Develop understanding of concepts of substituted judgment and power 3200 for court appointed surrogate decision maker.
9. Gain experience in diagnosis of Dementia and assessment for Probate Conservatorship
10. Understand the concepts of law and medical ethics as it applies to C&L Psychiatry.

DESCRIPTION: The Psychosomatic Medicine / C&L service at Olive View-UCLA Medical Center provides inpatient psychiatric evaluations to Medical, Surgical, Pediatrics and Ob/Gyn departments. The scope of services include psychiatric diagnostic evaluations using biopsychosocial approach; management of agitation and behavioral problems; treatment of anxiety, mood disorders and psychosis; capacity evaluations, and provide assistance to primary medical teams to apply for power 3200 and probate conservatorship. HIV Psychiatry Clinic provides biopsychosocial evaluations and treatment to patients with HIV/AIDS and co-morbid psychiatric disorders. Also assess suicide risk in newly diagnosed HIV patients and provide pscho education and supportive therapy to patients.

E-MAIL: pvenaglia@dmh.lacounty.gov

REPORT TO: Psychiatric Emergency Room, Harbor-UCLA Medical Center at 8:00 a.m.

COURSE OBJECTIVES (in order of importance)

1. Gain proficiency in formulating different psychiatry diagnoses and management in an emergency setting, i.e., schizophrenia, bipolar disorder, major depression, drug psychosis, etc.
2. Acquire familiarity with emergency psychopharmacologic intervention through the use of various psychotropic medications.
3. Develop skills in psychiatric interviewing technique, performing mental status examination, and gathering information for a complete psychiatric history.
4. Learn to make accurate assessments of suicidal and/or dangerous patients and develop plans for proper management.
5. Learn crisis intervention strategies to intervene with non-psychotic patients.
6. Learn to assess and treat patients with different dual diagnoses, i.e., medically and psychiatrically ill patients and also those with coexisting substance problems.

COLLEGE AFFILIATION: Acute Care

AVAILABLE FOR EXTERNS: Yes

STUDENTS / PERIOD: max 4 min 1

DURATION: 3 weeks

2013-2014 ROTATIONS BEGIN WEEKS:

2, 5, 8, 11, 14, 17, 20, 27, 30, 33, 38, 41, 44, 47

DESCRIPTION: The Psychiatric Emergency Service of Harbor-UCLA Medical Center provides evaluation and treatment to approximately 9000 patients a year. Its catchment area includes over 1% of the population of the USA. Direct clinical experience is provided to medical students with an emphasis on bedside teaching.

AVAILABLE FOR EXTERNS: Yes

STUDENTS / PERIOD: max 3 min 1

DURATION: 3 weeks

2012-2013 ROTATIONS BEGIN WEEKS: 2, 5, 8, 11, 14, 17, 20, 27, 30, 33, 38, 41, 44, 47

DESCRIPTION: This is an excellent opportunity to experience a multidisciplinary, integrated approach to the care of psychiatric patients. Non-UCLA externs may elect to participate for periods greater than three weeks as conforms with your institution's schedule. The South Unit is a 14-bed unit with length of stay approximately 7-10 days. There is also a 24-bed unit on 8 West with the same 7-10 days length of stay. Students electing this advanced clerkship will be assigned to a specific team, and will have an opportunity to work independently with patients suffering from a wide variety of psychiatric disorders under direct supervision of the attending. (Please see additional comments below.)
