**DESCRIPTION:** The UCLA/Salvation Army Family Outreach Clinic is managed and staffed by UCLA medical students with volunteer faculty supervision under the aegis of the Department of Family Medicine. Student Chiefs, working with the faculty, will oversee clinic sessions and evening seminars, manage the schedule and website, and organize and re-stock medical supplies. Student Chiefs will learn the practical skills of organizational leadership and management through the challenge of running the clinic and course. The website is linked to Family Medicine site at: www.medsch.ucla.edu/fammed/student programs.

# FP207.01 Alternative/Complementary Medicine Clinical Elective

**Advanced Clinical Clerkship**  
**Location:** CHS  
**2001-2002**

<table>
<thead>
<tr>
<th>COURSE CHAIR:</th>
<th>PHONE #:</th>
<th>COURSE OBJECTIVES (in order of importance)</th>
</tr>
</thead>
</table>
Understanding of principles common to alternative systems and how some of these principles can be applied to conventional care.  
2. Counsel patients about alternative therapies and know when referral may or may not be appropriate.  
4. Experience first-hand alternative and complementary medical practices in a clinical setting. |

## Supporting Faculty:

**Student Coordinator:**  
Heather Bautista  
(310) 625-1048

**Report To:** BH-136 CHS

**Prerequisites:** None

**Available To Externs:** No

**Students / Period:** max 1 min 1

**Duration:** 2 weeks **

**2001-2002 Electives Begin Weeks:**  
10, 16, 18, 30, 34, 38, 42

**Introduction:** Under the direction of the course chair, the student will design a program of study in alternative and complementary medical therapies that fits the student's particular interests. Time will be spent doing directed reading and working in the community with various practitioners, primarily in an observational position. Students wanting to explore one field in depth may do so, although an overview of several areas is also possible.

## Student Experiences

### Common Problems/Diseases

1. Fatigue  
2. Arthritis  
3. Back pain  
4. Anxiety  
5. Skin rashes  
6. Allergies  
7. Menopause

**Additional Comments and Other Special Requirements:** Treatment methods the student may study include: Chinese Medicine (Acupuncture, Herbs, QI Gong), Ayurveda, Homeopathy, Chiropractic, Body Work, Herbal Remedies, Osteopathic Manipulation and integrative medicine.  
**Students must commit to entire 2 weeks duration with no time off for interviews – no exceptions.**
FP250.02 FAMILY PRACTICE IN A MANAGED CARE SETTING

Advanced Clinical Clerkship Location: ASSOC 2001-2002

COURSE CHAIR: PHONE #: COURSE OBJECTIVES (in order of importance)
Robert J. Simon, M.D. (818) 789-0451
1. Development of skills in the diagnosis and management of patient care in a Family Practice office utilizing a managed care approach to decision making.

SUPPORTING FACULTY:

2. Utilize the appropriate problem-solving skills in patient care management.

STUDENT COORDINATOR: PHONE #:
Robert J. Simon, M.D. (818) 789-0451
3. Knowledge and development of clinical procedures performed in the physician’s office.

REPORT TO: Robert J. Simon, M.D., 13320 Riverside Drive, #214, Sherman Oaks.
4. Ability to have a professional attitude in the clinical setting.

PREREQUISITES: Third or fourth year standing
5. Obtain knowledge of patient referrals to other physicians, home health agencies, and supportive services in a managed care setting.

AVAILABLE TO EXTERNS: Yes
6. Understand the importance of continuity of patient care in the clinical setting.

STUDENTS / PERIOD: max 1 min 1
7. Develop an understanding of how the managed care physician manages his office staff under the group practice model.

DURATION: 3 or 6 weeks
8. Develop an understanding of how the private physician deals with patient emergencies.

2001-2002 ELECTIVES BEGIN WEEKS: By Arrangement
9. Understand the financial obligations and responsibilities encompassed in a managed care setting.

DESCRIPTION: This course offers on-site clinical experience to the Third or Fourth year student in a managed care practice under the auspices of a Family Practitioner. The practice encompasses a full array of out-patient clinical experiences. Introduction to the concept of managed care will be stressed, with its impact on the decision making process.

COURSE OBJECTIVES (in order of importance)
1. Development of skills in the diagnosis and management of patient care in a Family Practice office utilizing a managed care approach to decision making.
2. Utilize the appropriate problem-solving skills in patient care management.
3. Knowledge and development of clinical procedures performed in the physician’s office.
4. Ability to have a professional attitude in the clinical setting.
5. Obtain knowledge of patient referrals to other physicians, home health agencies, and supportive services in a managed care setting.
6. Understand the importance of continuity of patient care in the clinical setting.
7. Develop an understanding of how the managed care physician manages his office staff under the group practice model.
8. Develop an understanding of how the private physician deals with patient emergencies.
9. Understand the financial obligations and responsibilities encompassed in a managed care setting.

ON CALL SCHEDULE & WEEKEND ACTIVITIES: Individual practice sites may have varying practice schedules and responsibilities, which may include hospital rounds, medical education, emergency room coverage, and call.

ADDITIONAL COMMENTS AND OTHER SPECIAL REQUIREMENTS:  Students must schedule their rotation 1-2 months in advance with Debbie Kafka in order to assure site availability. There are a limited number of practice sites available, and the number of students that may take the course each block is determined by the number of sites available for that time period. A stipend will be given to students to support the costs of living away from home. Housing will be arranged on an individual basis.
COURSE OBJECTIVES (in order of importance):
1. Assuming primary care responsibility commensurate with students experience and ability.
2. Seeing and treating patients with emphasis on continuity of care and natural history of progress.
4. Working cooperatively with other physicians and nurse practitioners.
5. Learning some of the economics and management of medical practice.

DESCRIPTION: This elective provides the opportunity to observe and participate in a small community health care system which exposes you to various community services in addition to the hospital and private practice experience.

COMMON PROBLEMS/DISEASES
1. All respiratory problems
2. Orthopedic emergencies
3. Gastroenterology problems
4. Cardiovascular problems

ON-CALL SCHEDULE & WEEKEND ACTIVITIES: Usually one day off during the week. Should be around part of or a whole weekend during the rotation.

ADDITIONAL COMMENTS AND OTHER SPECIAL REQUIREMENTS: * Schedule flexible. Office practice may be substituted with other experiences involving various community agencies. R.J. Rose, M.D., P.O. Box 155, Mariposa, CA 95338
FP253.03 STUDENT RUN HOMELESS FAMILY CLINIC

Advanced Clinical Clerkship

Location: CHS

COURSE OBJECTIVES (in order of importance):

1. Challenge student’s attitudes and behaviors toward caring for families who are poor and homeless.
2. Teach the importance of an integrated health care approach that addresses the medical psychiatric, social, and preventative health services needs.
3. Learn a family oriented primary care approach to health promotion and disease treatment and prevention.
4. Student will learn how to totally manage the care of a patient -- the student takes care of all labs and orders.

AVAILABLE TO EXTERNALS: Yes

STUDENTS / PERIOD: max 1 min 1

DURATION: 3 weeks

2001-2002 ELECTIVES BEGIN WEEKS: By Arrangement

DESCRIPTION: This course emphasizes the role of the family physician in caring for the family as a unit: medically, psychologically, and sociologically. By seeing patients in the FPC and in the ER, the student will experience firsthand the concept of primary, comprehensive, and continuous care.

COURSE OBJECTIVES (in order of importance):
1. Familiarize the student w/an approach to the outpatient management of problems commonly seen in a Family Practice Residency.
2. Allow the student to attend specialty clinics, rounds & conferences
3. Perform appropriate procedures (e.g., casting, suturing) on patients seen in the FPC and ER.
4. To develop understanding of the concepts of “continuity of care,” “comprehensive,” and “primary” care.
5. To learn simple laboratory procedures which can be performed in an office setting.
6. To become acquainted with the depth of training which family physicians receive: unique knowledge, skills, and attitudes required in Family Medicine.
7. To give insight into Family Medicine as a means of delivery of cost effective health care.
8. To learn and utilize effective patient education techniques.
9. To compare experiences in delivery of health care via the ER and FPC, Rural Health Center & Indigent Care Center.
10. To understand the role of each member of the health care team (behavioral scientists, nurses, nurse practitioners, P.A.s, clinical

3. Arthritis
4. Peptic Ulcer Disease
5. Obesity
6. Psychological Problems
7. Outpatient OB/Gyn
8. Well Child Care
9. Adolescent Health

COURSE OBJECTIVES (in order of importance)

1. An appreciation of the role of the family physician in providing primary care to a broad, largely underserved patient population.
2. Improved skills in assessment and management of health problems seen commonly in an ambulatory care setting.
3. Improved skills in history and physical examination and the use of the clinical lab.
4. Managed Care/Politics/Policy/Evaluation.
5. An appreciation of the importance of home visits.
6. Introduction to clinical epidemiology.
7. An appreciation of the relationship between poverty, race, and disease.
8. An introduction into cross-cultural medicine.

DESCRIPTION: The Clerkship gives medical students experience in an urban family Medicine office which serves a multi-ethnic medically indigent population as well as adolescent, child, women's health. Lecture series will concentrate on Public Health, Health Policy, and Managed Care.
