COURSE OBJECTIVES (in order of importance)
1. To gain an understanding of the basic concepts involved in reproductive endocrinology and infertility.
2. To gain insight into the pathophysiologic processes involved in reproductive endocrinology and infertility.
3. To gain knowledge in the management of patients with various reproductive endocrinology disorders.
4. To gain exposure to the various aspects of the assisted reproductive technologies including ultrasound, in vitro fertilization, ovulation induction, and intrauterine insemination.
5. To provide an introduction to the in vitro fertilization and andrology laboratories.
6. To become actively involved in conferences including oral presentations, case and group discussions.
7. To provide an opportunity for research in both basic science and clinical projects.

DESCRIPTION: This in-depth elective is designed for 4th year medical students with basic knowledge of Obstetrics and Gynecology. It will provide the necessary information to understand the many complex issues encountered in Reproductive Endocrinology and Infertility Services, including various androgen excess, ovulatory dysfunction, menstrual disorders, menopause, fertility counseling, and advanced reproductive technology treatment, such as in vitro fertilization and sperm microinjection.

STUDENT EXPERIENCES
COMMON PROBLEMS/DISEASES
1. Infertility
2. Ovulatory Dysfunction
3. Menopause
4. Androgen Excess
5. Menstrual Disorders
6. Contraception
7. Galactorrhea
8. Endometriosis

3, 6, 9, 12, 15, 18, 21, 27, 30, 33, 36, 39, 42, 45

DESCRIPTION: The student will participate in the performance of ultrasound examinations within all the divisions of the Department of Obstetrics and Gynecology. Teaching activities include: classes and lectures with members of the staff and faculty, conference and specialty clinics with the Staff, Fellows, and Resident Teams.

COURSE OBJECTIVES (in order of importance)  
At the completion of this course the participant should have knowledge of:

1. Normal fetal anatomy.
2. Fetal biometry.
3. Pelvic anatomy.
4. Basic principles and instrumentation of ultrasound physics.
5. Biological effects and safety precautions for use of diagnostic ultrasound.
6. Proper fundamental maintenance and use of equipment.

STUDENT EXPERIENCES

COMMON PROBLEMS/DISEASES
1. Fetal viability
2. Estimated gestational age
3. Estimated gestational weight
4. Placenta previa
5. Ectopic pregnancy
6. R/O pelvic mass
7. Fetal aneuploidy
8. Multiple gestations

ON-CALL SCHEDULE & WEEKEND ACTIVITIES: N/A

ADDITIONAL COMMENTS AND OTHER SPECIAL REQUIREMENTS:
OG305.01  INTENSIVE CLINICAL OB/GYN

Subinternship

Location: KDMC

COURSE OBJECTIVES (in order of importance)
1. Knowledge of normal and abnormal pregnancy, normal and abnormal labor and delivery.
2. Knowledge of antepartum and intrapartum fetal assessment.
3. Knowledge of female reproductive diseases processes (e.g., pelvic inflammatory disease, ectopic pregnancy, abnormal vaginal bleeding etc.).
4. Knowledge of common gyn endocrine and infertility problems.
5. Knowledge of pre-invasive and invasive cervical malignancies.
6. Technique and procedures (e.g., normal vaginal delivery, culdocentesis, etc.).
7. Improved history and physical examination, particularly gynecological examination.
8. Utilization of the health care team.

DESCRIPTION:
This is mainly an ambulatory OBGYN clinic rotation that exposes the student to the variety of all subspecialties of OBGYN. The student will be exposed to high-risk obstetrics clinic, obstetrical ultrasound, fetal testing and prenatal genetics service in the morning. In the afternoon, the student will attend the general gynecological clinics, culposcopy and oncology clinic, urodynamics, endocrinology and mature women clinics. A family planning clinic supervised by midwives is also included. The student will get a lot of hands on experience and will work with residents and faculty. This is a good experience for a student who wants to get more experience in primary care for women’s health. Calls are optional at student’s request.

ADDITIONAL COMMENTS AND OTHER SPECIAL REQUIREMENTS:
## Course Information

**Subinternship Chair:** Khalil Tabsh, M.D.  
**Phone #:** (310) 208-4492

**Supporting Faculty:** Maternal-Fetal Medicine Faculty and Fellows

**Student Coordinator:** Kristy Fong  
**Phone #:** (310) 825-9945  
**E-Mail:** ksfong@mednet.ucla.edu  
**Fax:** (310) 206-6531

**Report To:** Ob/Gyn Dept. Off., Rm. 24-126 CHS at 8:30 a.m.

**Available to Externs:** Yes

**Prerequisites:** Core Clerkships in Ob/Gyn, Surgery, Internal Medicine and Pediatrics

**Students / Period:** max 1 min 1

**Duration:** 3 weeks

**2004–2005 Rotations Begin Weeks:** 3, 6, 9, 12, 15, 18, 21, 27, 30, 33, 36, 39, 42, 45, 48

### Course Objectives (in order of importance)

1. Gain appreciation for impact of pregnancy on normal physiology.
2. Increase understanding of various pathophysiologic processes in pregnancy.
3. Observe firsthand the effect of pregnancy on many common medical and surgical problems.
4. Gain experience in evaluating and managing high-risk obstetric patients in both the inpatient and outpatient settings.
5. Evaluate and write admission orders for pregnancies complicated by hypertension, diabetes, recurrent urinary tract infections, incompetent cervix and premature labor.
6. Develop continuing management and treatment plans for these same patients.
8. Learn team care approach in management of high-risk patients working with nurses, dietitians and social workers.
9. Observe and participate in new approaches to fetal diagnosis and therapy.
10. Gain experience in the presentation of conferences.

### Description:

This is a clinical course for medical students focusing on the medical management of high-risk obstetric patients. Students will be paired with a Maternal-Fetal Medicine attending and accompany them during outpatient clinics, inpatient rounds, ultrasound procedures and during selected deliveries and surgery.

### Student Experiences

#### Common Problems/Diseases

1. Hypertensive disorders in pregnancy  
2. Premature labor rupture of membranes  
3. Cardiovas and pulmonary disease  
4. Diabetes mellitus in pregnancy  
5. Urinary tract infections in pregnancy.  
6. Autoimmune disorders complicating pregnancies  
7. Abnormal fetal growth and postdate disease  
8. Multiple gestation and Rh disease

**Inpatient:** 15%  
**Outpatient:** 85%  
**Consultation:** 0%  
**Primary Care:** 100%

**Approximate # of Patients Evaluated Each Week by Student:** 5

**Total # of Patients Evaluated Each Week by Entire Service:** 25

### On-Call Schedule & Weekend Activities:

No night-call on this elective, but attendance at weekend rounds to report on hospitalized patients is expected. This elective is NOT intended for those seeking extensive labor and delivery experience.

### Additional Comments and Other Special Requirements:
COURSE CHAIR: Griselda Gutierrez, M.D.  PHONE #: (310) 222-8233

SUPPORTING FACULTY:  
Drs. M. Beall, A. Bieniarz, M. El-Haddad, B. Morgan, M. Ross, and L. Yonekura

STUDENT COORDINATOR:  PHONE #: (310) 222-3561  
E-MAIL: aenriquez@obgyn.humc.edu

REPORT TO: Antonia Enriquez 7W12 on the first day of the rotation at 8:00 am.

PREREQUISITES: Core clerkships in Ob/Gyn, Medicine, Surgery and Pediatrics

AVAILABLE TO EXTERNS: Yes

STUDENTS / PERIOD: max 1 min 1

DURATION: 3 weeks

2004–2005 ROTATIONS BEGIN WEEKS: 6, 12, 18, 21, 27, 30, 33, 36, 39, 42, 45, 48

COURSE OBJECTIVES (in order of importance)
1. Increase understanding of maternal and fetal physiology.
2. Diagnosis and management of pregnant patients with medical and obstetrical complications during the antepartum, intrapartum, and postpartum periods.
3. Understanding the impact of pathologic conditions on the course of pregnancy and the effect of pregnancy on certain disease processes.
5. Improve skills in clinical diagnosis and the use of laboratory tests and procedures in perinatal medicine.
6. Understanding the concept of perinatal medicine and perinatal research.
7. Utilization of the health care team in the management of high risk pregnancies, i.e., nurse practitioners, nurse educators, dietitians, and social workers.
8. Oral presentations and group discussions.
9. Library research of pertinent literature dealing with perinatal problems
10. Orientation to research in maternal-fetal medicine.

DESCRIPTION: The student will be involved in the management of pregnant patients with obstetrical and medical complications. The student will observe and participate in the performance and interpretation of NST, CST, and biophysical profiles. The students will spend part of the time seeing patients in the high-risk OB clinics.

ON-CALL SCHEDULE & WEEKEND ACTIVITIES: Every fourth night.

ADDITIONAL COMMENTS AND OTHER SPECIAL REQUIREMENTS:
COURSE OBJECTIVES (in order of importance)
1. To understand the concept of perinatal medicine and the role of Maternal-Fetal Medicine Specialists in the management of complicated pregnancies.
2. Ability to diagnose common complications of pregnancy.
3. To interpret fetal heart rate patterns.
4. To understand the concept, indications and techniques of fetal testing and evaluations.
5. Exposure to genetic counseling and the role of genetics in pregnancy.
6. To familiarize the student with the use, techniques an indications of ultrasound in pregnancy.
7. To expose the student to indications and techniques of genetic amniocentesis.
8. To provide students hands-on experience in the performance of basic ultrasound evaluations and biophysical profiles.
9. To ensure that the student has working knowledge of development, diagnosis and management of birth defects.
10. To ensure that the student develops the appropriate bedside manner, understanding and empathy to deal with women who have complicated pregnancies with adverse outcomes.

DESCRIPTION:
The student will be exposed to obstetrical, medical and surgical complications of pregnancy. The High-Risk Obstetrical Team includes the Maternal-Fetal Medicine Specialist, Geneticist, residents and medical students. The clinical activities include rotations through the high-risk prenatal clinics, the Perinatal Diagnostic Center and the antepartum wards. Weekly perinatal meetings are held and include review of cases, lectures by the Maternal-Fetal Medicine Specialist, and case presentations by the residents and medical students. The Maternal-Fetal Medicine Specialist is the primary supervising attending of the team. The Maternal-Fetal Medicine Specialist with the geneticist and other faculty members teach, supervise and train the medical students in the Perinatal Diagnostic Center.

STUDENT EXPERIENCES

COMMON PROBLEMS/DISEASES
1. Premature rupture of membranes
2. Recurrent pregnancy losses
3. Placental abruption
4. Fetal cranial anomalies
5. Fetal cardiovascular anomalies
6. Fetal genitourinary anomalies
7. Intrauterine growth restriction
8. Abnormal maternal serum screening

ON-CALL SCHEDULE & WEEKEND ACTIVITIES:

ADDITIONAL COMMENTS AND OTHER SPECIAL REQUIREMENTS:
COURSE OBJECTIVES (in order of importance)

1. To become familiar with the diagnosis, staging, and management of gynecologic malignancies.
2. To understand the pathophysiologic process in the clinical and histologic settings of the major gynecologic malignancies.
3. To actively participate on the oncology team in all aspects of primary patient care, admission, evaluation, orders, surgery, and management.
4. To become proficient in the written and oral presentation of patients with multiple problems.
5. To become familiar with historical and current concepts of cancer therapy; surgery, chemo, radiation, and most importantly—prevention.
6. To improve knowledge of pelvic anatomy by observing radical surgery.

STUDENT EXPERIENCES

SUBJECT MATERIAL COVERED:
- Gestational trophoblastic disease
- Vulvar neoplasms
- Cervical disease and neoplasia
- Uterine neoplasms
- Ovarian neoplasms
- Chemotherapeutic principles
- Complicated perioperative/postoperative care
- Palliative/end-of-life care

STUDENT EXPERIENCES

COMMON PROBLEMS/DISEASES
1. Ovarian cancer
2. Cervical cancer
3. Uterine cancer
4. Gestational trophoblastic disease
5. Vaginal/vulvar cancer
6. Gynecologic premalignant disease
7. Surgical techniques/complications
8. Palliative/end-of-life care

ON-CALL SCHEDULE & WEEKEND ACTIVITIES: There will be no night call, but the student is required to participate in weekend rounds for 2 to 3 weekends.

ADDITIONAL COMMENTS AND OTHER SPECIAL REQUIREMENTS: The student will have the opportunity to see private patients, both in the outpatient and inpatient settings at community hospitals, if time permits with the faculty supervisor. The weekly schedule will vary depending on the operative schedule. Also, the student will be responsible for one presentation at the M&M conference and case presentations at Tumor Board.
COURSE OBJECTIVES (in order of importance)
1. Knowledge of female reproductive physiology and pregnancy.
2. Knowledge of female reproductive disease processes (e.g., pelvic inflammatory disease, ectopic pregnancy, abnormal vaginal bleeding, etc.) and abnormal pregnancy.
3. Improved skills in the diagnosis of acute gynecologic and obstetric problems.
4. Improved history and physical examination skills of women.
5. Management of normal labor and delivery.
6. Techniques and procedures (e.g., normal vaginal delivery, culdoscintesis, fetal monitoring, ultrasound, amniocentesis, C-section).
7. Participation with the health care team.
8. Medical record keeping (e.g., problem-oriented pregnancy data collection and assessment).

STUDENT EXPERIENCES

COMMON PROBLEMS/DISEASES
1. Normal labor & delivery
2. Abnormal labor, fetal distress
3. Intrapartum fetal assessment
4. Postpartum complications
5. Early pregnancy complications
6. Ob/Gyn emergencies
7. Post operative care
8. Female infertility
9. Malignancies of the reproductive tract
10. Premalignant disease
11. Incontinence

ADDITIONAL COMMENTS AND OTHER SPECIAL REQUIREMENTS: This course provides an extensive, practical experience in the management of patients in both the inpatient and ambulatory care settings. Sub-I will rotate duties daily with one resident team for the duration of the course. *Days assigned to each service will vary each week.
**OG350.04 ADVANCED OBSTETRICS AND GYNECOLOGY**

**Subinternship**

**Location:** OVH

**STUDENT COORDINATOR:**
Dixie Pravettone (818) 364-3222

**SUPPORTING FACULTY:**
All OB/GYN faculty

**COURSE CHAIR:**
Paul Toot, M.D. (818) 364-3222

**E-MAIL:** dpravettone@dhs.co.la.ca.us

**REPORT TO:**
OB/GYN Office, Rm. #2B163 at 8 a.m., first day of rotation.

**PREREQUISITES:**
Core clerkship in OB/GYN, Medicine, Surgery

**AVAILABLE TO EXTERNS:**
No

**STUDENTS / PERIOD:**
max 1 min 1

**DURATION:**
3 weeks

**2004–2005 ROTATIONS BEGIN WEEKS:**
3, 6, 9, 12, 15, 18, 21, 27, 30, 33, 36, 39, 42, 45, 48

**COURSE OBJECTIVES (in order of importance):**
1. Develop the ability to do a comprehensive pelvic examination of both the pregnant and non-pregnant patient.
2. Evaluate acute obstetric and gynecologic problems in the emergency room.
3. Improve surgical skills in the operating room.
4. Follow patients with uncomplicated and complicated labors.
5. Deliver uncomplicated patients.
6. Follow antepartum and post partum high risk obstetrical patients.
7. Improve outpatient OB/GYN clinical skills.
8. Enhance formal presentation skills on rounds and conferences.

**DESCRIPTION:**
This is a rotation for students who wish to deepen their knowledge of general OB/GYN and improve their clinical diagnostic and therapeutic skills in obstetrics and gynecology.

**STUDENT EXPERIENCES COMMON PROBLEMS/DISEASES**

**ON-CALL SCHEDULE & WEEKEND ACTIVITIES:** On call every fourth night.

**ADDITIONAL COMMENTS AND OTHER SPECIAL REQUIREMENTS:**
Subinternship Location: OVH

COURSE OBJECTIVES (in order of importance)
1. Independent evaluation and management of normal and complicated OB-GYN patients in an outpatient setting.
2. Develop extensive knowledge of disease processes such as: gestational diabetes, pregnancy induced hypertension, post dates pregnancy, pelvic inflammatory disease, abnormal cervical smears, pelvic masses, uterine bleeding, etc.
3. Enhance formal and informal presentation skills: all patients seen by student will be presented and discussed with faculty.
4. Acquire skills in areas such as: colposcopy, cervical/endometrial biopsy, cryotherapy.
5. Medical judgment, analysis of laboratory results.
6. Interpretation of sonographic and radiologic tests.
7. Use and interpretation of antenatal tests.

DESCRIPTION: The student will be part of a team of ten providers divided among faculty, residents, and fellows in a busy, high-risk referral outpatient division. The patients represent a variety of complicated obstetrical and gynecological conditions.

STUDENT EXPERIENCES

COMMON PROBLEMS/DISEASES
1. Gestational diabetes
2. Hypertensive disorders of pregnancy
3. Infectious diseases of pregnancy
4. Post dates pregnancy
5. Menopause
6. Abnormal cervical smears
7. Endocrine disorders
8. Pelvic

ADDITIONAL COMMENTS AND OTHER SPECIAL REQUIREMENTS:
COURSE CHAIR: Griselda Gutierrez, M.D. (310) 222-8233

SUPPORTING FACULTY:

STUDENT COORDINATOR: Antonia Enriquez (310) 222-3561 E-MAIL: aenriquez@obgyn.humc.edu

REPORT TO: Antonia Enriquez, 7W12 at 8:00 a.m. on the first day of the rotation.

PREREQUISITES: Family Medicine, Inpatient Medicine, Outpatient Medicine, Pediatrics, Ob/Gyn, and Surgery

AVAILABLE TO EXTERNALS: Yes

STUDENTS / PERIOD: max 1 min 1

DURATION: 3 weeks

2004–2005 ROTATIONS BEGIN WEEKS: By Arrangement

DESCRIPTION: This elective is for students who are interested in a broader view of women’s health. The goal is to direct the students’ attention to issues in women’s health (such as barriers to access to care) by caring for women who have only episodic access (Urgent Care Clinic) or access through special categorical programs (Family Planning). The full range of ages of women, from reproductive through menopausal aged women, will be cared for. Students will have primary responsibility for the assessment of the patient and the development of management plans. When appropriate, students will be able to follow their patients into the operative and inpatient settings. Students will have ongoing daily contact with faculty, and will be expected to contribute to the weekly formal didactic sessions.

STUDENT EXPERIENCES

COMMON PROBLEMS/DISEASES
1. Abnormal vaginal bleeding
2. Pelvic pain
3. Primary care issues/ health maintenance
4. Menopausal syndrome
5. Sexually transmitted infections
6. Contraception
7. Infertility
8. Abnormal pap smears
9. Urogynecology
10. Early pregnancy complications

COURSE OBJECTIVES (in order of importance)
1. Understand the concept of population-based medical care.
2. Appreciate the social issues and barriers to access to care for women who are medically uninsured or under-insured, and/or living in under-served communities.
3. Develop skills in assessing social contexts of illnesses and disease.
4. Applying Ob/Gyn skills in the broader context of women's health.
5. Enhance diagnostic and management clinical skills in ambulatory Ob/Gyn care, especially in the sites where women seek episodic care.
6. Develop specific clinical skills, including vaginal microscopy, and refinement of skills in the pelvic and breast examinations.
7. Improve management of specific clinical issues, including: acute bleeding and pain, contraception, infertility, hormonal management menopause and perimenopause, sexually transmitted infections, preventive health care, specific issue in adolescent gynecology.
8. Exposure to abortion service (optional).

DURATION: 3 weeks

2004–2005 Rotate Begin Weeks: 3,6,9,12,15,18,21,27,30,33,36,39,42,45

COURSE OBJECTIVES (in order of importance)
1. To provide a comprehensive fourth-year elective experience in Gynecologic Oncology.
2. To instruct in the fundamentals of diagnosis and management of patients with gynecologic malignancies.
3. To instruct in the fundamentals of pelvic surgery as it relates to these malignancies.

DESCRIPTION: This course is a sub-internship in gynecologic oncology. It is a predominantly inpatient experience which focuses on the complex surgical and medical aspects of women with gynecologic cancer. A considerable amount of time is spent in the operating room and on pre and post-operative care.

STUDENT EXPERIENCES

ADDITIONAL COMMENTS AND OTHER SPECIAL REQUIREMENTS:
COURSE CHAIR: Jonathan S. Berek, M.D.  (310) 825-9945  
SUPPORTING FACULTY:  
Faculty, Division of Gynecology Dept. of Obstetrics and Gynecology, UCLA, CHS  
STUDENT COORDINATOR: Kristy Fong  (310) 825-9945  
E-MAIL: ksfong@mednet.ucla.edu  
REPORT TO:  
Kristy Fong, 24-126 CHS at 8:30 a.m.  
PREREQUISITES:  
Core clerkships in Ob/Gyn, Surgery I, and Internal Medicine  
AVAILABLE TO EXTERNS: Yes  
STUDENTS / PERIOD: max 1 min 1  
DURATION: 3 weeks  
2004–2005 ROTATIONS BEGIN WEEKS: 3, 6, 9, 12, 15, 18, 21, 27, 30, 33, 36, 39, 42, 45  
DESCRIPTION: With changes in how health care is supplied and renewed educational focus on ambulatory care, many undergraduate students are not exposed to the complexities or the subtleties of Inpatient Gynecologic Care. This elective is specifically for the student who desires intense exposure to a busy operative Gynecologic Inpatient Service. Because of the high surgical volume and the patient mix at this world-renowned tertiary referral center, the student will have the opportunity to observe the full range of operative gynecologic procedures performed for the management of benign disease processes, as well as participate in the care of numerous patients undergoing such procedures.

COURSE OBJECTIVES (in order of importance)  
1. To master the fundamentals of the management of the diseases leading to admission to an inpatient gynecology service.  
2. To be able to complete a thorough pre-operative history and physical and develop an appropriate differential diagnosis and management pathway for patients presenting with disease include in objective 1.  
3. To be able to describe the performance of the commonly performed surgical procedures employed in the management of patients presenting with the diseases included in objective 1.  
4. To be able to perform post operative evaluation and appropriate intervention for patients undergoing management of diseases included in objective 1.

COMMON PROBLEMS/DISEASES  
1. Leiomyomata uteri  
2. Adenomyosis  
3. Endometriosis  
4. Benign adnexal masses  
5. Symptomatic pelvic relaxation  
6. Genuine stress urinary incontinence  
7. Pelvic inflammatory disease  
6. Chronic pelvic pain
