PREREQUISITES:  
Special selection process by outgoing Student Chiefs. Applicants for this honor elective must demonstrate prior involvement in SRHC and submit an application (available online: http://fm.mednet.ucla.edu/sac2/default.htm). Chiefs will be concurrently enrolled in FP250.03

AVAILABLE TO EXTERN:  No

STUDENTS / PERIOD: max 14 min 6

DURATION: Longitudinal Total 2 weeks of credit.

2006-2007 ROTATIONS BEGIN: April 2006

DESCRIPTION: The UCLA Student Run Homeless Family Clinic at Westwood and Santa Monica and the Mobile Clinic are managed and staffed by UCLA students with volunteer faculty supervision. Working with the faculty, Student Chiefs oversee clinic sessions and evening seminars, manage the clinic schedule, patient flow, medical records, and medical formulary and supplies and provide teaching and mentoring to the junior students. Student Chiefs thus have the opportunity to hone their leadership and teaching skills while obtaining practical training in practice management. Each Student Chief has primary responsibility for at least one of the major administrative functions of the clinic or its programs, which include educational innovation and community outreach. For further information, access the website at: www.medsch.ucla.edu/fammed/students.sac2.

COURSE GOALS AND OBJECTIVES
Student Chiefs will:
1. Have the opportunity to practice the skills involved in managing a free clinic, including: planning clinic budget and purchases, managing patient records, medication stocks, clinic schedule and personnel, patient flow, child immunization program, and coordination of the health care team under the supervision of attending faculty.
2. Become familiar with the unique challenges of providing health care to an underserved population.
3. Gain insight into the role of patient advocacy, leadership, and teaching in one’s career as a physician.
4. Demonstrate skill and cognitive proficiency in the management of common medical problems and preventative health needs of underserved populations.
5. Have the opportunity to practice medical “precepting” and teaching in the clinical environment.

ON-CALL SCHEDULE & WEEKEND ACTIVITIES: SAC Westwood and Samoshel: 9:00 a.m. – Noon clinic on Saturdays. Mobile Clinic: 5:00 p.m. – 9:00 p.m. on Wednesdays

ADDITIONAL COMMENTS AND OTHER SPECIAL REQUIREMENTS: Student Chiefs and the Clinic Director will be expected to arrange coverage of the various responsibilities outlined above. They will meet with the course chairman in order to make decisions about managing the clinic and leading the course. PCC students may use FP150.01 to satisfy PCC longitudinal experience requirement.
COURSE OBJECTIVES (in order of importance)
1. Development of skills in the diagnosis and management of patient care in a Family Practice office utilizing a managed care approach to decision making.
2. Utilize the appropriate problem-solving skills in patient care management.
3. Knowledge and development of clinical procedures performed in the physician’s office.
4. Ability to have a professional attitude in the clinical setting.
5. Obtain knowledge of patient referrals to other physicians, home health agencies, and supportive services in a managed care setting.
6. Understand the importance of continuity of patient care in the clinical setting.
7. Develop an understanding of how the managed care physician manages his office staff under the group practice model.
8. Develop an understanding of how the private physician deals with patient emergencies.
9. Understand the financial obligations and responsibilities encompassed in a managed care setting.
10. Understand the role of the physician in the clinical setting.

DESCRIPTION: This course offers on-site clinical experience to the third- or fourth-year student in a managed care practice under the auspices of a family practitioner. The practice encompasses a full array of out-patient clinical experiences. Introduction to the concept of managed care will be stressed, with its impact on the decision making process.

*Note: Variable schedule

ON-CALL SCHEDULE & WEEKEND ACTIVITIES: No on-call or weekend responsibilities/may participate voluntarily

ADDITIONAL COMMENTS AND OTHER SPECIAL REQUIREMENTS: Since the practice setting is a private office, patient contact and hands-on opportunities will be variable.
COURSE GOALS AND OBJECTIVES:
1. Become familiar with the psychology, motivation, and dynamics underlying addiction and the impact on the addicted individual and his or her family.
2. Acquire an understanding of the principles of addiction treatment.
3. Develop an appreciation for group therapy and peer support as therapeutic tools.
4. Gain insight into the experience of patients undergoing treatment for addiction.

DESCRIPTION: The Student Run Homeless Family Clinic is managed and staged by UCLA medical students with volunteer faculty supervision under the aegis of the Department of Family Medicine. Students will receive a one-week elective pass/fail credit. The Westwood clinic is located at Salvation Army Transitional Family Housing and has a large pediatric population and the child immunization program. “Samoshel” is located in Santa Monica and serves a homeless adult population. The Mobile Clinic has recently joined as a third site. This clinic provides care to an at-risk youth and a predominantly homeless population with a high incidence of IV drug use.

STUDENT COORDINATOR: Jason Bergschneider (310) 267-0442 E-MAIL: jbergschneider@mednet.ucla.edu FAX: (310) 267-0445

REPORT TO: Dr. Lewin, Falmouth, Jamaica, TBA

PREREQUISITES: 4th Year student, Prior experience in student run homeless clinics preferred

AVAILABLE TO EXTERNALS: No

STUDENTS / PERIOD: max 20 min 5

DURATION: 1 weeks

2006 - 2007 ROTATIONS BEGIN WEEKS: By Arrangement

DESCRIPTION: This is an intense, high-volume clinical experience offered once a year at a free clinic in Falmouth, Jamaica. Falmouth is a locally impoverished region only 30 miles from Montego Bay. The population of the city and surrounding countryside has a high rate of chronic illness, including diabetes, hypertension, heart disease, asthma, and related complications. They also suffer from infections and skin conditions found more commonly in the tropics. Students will provide patient care under direct attending supervision. In addition, students will be responsible for preparing a scholarly project related to the clinical experience and attend a minimum of four (4) of the dinner seminars on cross-cultural medicine and international health topics offered as curriculum and preparation for the experience.

COURSE OBJECTIVES (in order of importance)

By the end of the elective, students are expected to have gained:
1. Experience in providing health care in a setting with limited resources.
2. Appreciation for providing care to medically underserved, impoverished populations.
3. Understanding of the relationship between poverty and disease.
4. Insight into the impact of culture on understanding, approach and management of disease as well as disease prevention.
5. Understanding of the practical elements of clinic management, including the concepts of patient flow, triage, medical record keeping, patient confidentiality, dispensary services and coordination of care.
6. First-hand experience of immersion into another culture and the adaptation skills involved in being a “minority” in a foreign environment.
7. An appreciation of working with a multidisciplinary team including nurses, nurse practitioners, and other providers.
8. Improved efficiency and skill in conducting a direct history and physical, and performing outpatient procedures.
9. Insight into public health issues and the concept of treating an individual in the context of his or her community.

STUDENT EXPERIENCES

ON-CALL SCHEDULE & WEEKEND ACTIVITIES:

ADDITIONAL COMMENTS AND OTHER SPECIAL REQUIREMENTS: Meals provided. Although not a prerequisite, knowledge of Spanish will help to enhance the student's learning experience. Housing list available; no stipend. Ventura County Medical Center, Medical Education Office, 3291 Loma Vista Road, Ventura, CA 93003
COURSE OBJECTIVES (in order of importance)
1. To become acquainted with the breadth of Family Medicine Residency training.
2. Perform appropriate procedures (e.g., casting, suturing) on patients seen in the FHC and ER.
3. To develop understanding of the concepts of “continuity of care,” “comprehensive,” and “primary” care.
4. To become acquainted with the depth of training which family physicians receive: the unique knowledge, skills, and attitudes required in Family Medicine.
5. To give insight into Family Medicine as a means of delivery of cost effective health care.
6. To learn and utilize effective patient education techniques.
7. To understand the role of each member of the health care team (behavioral scientists, nurses, nurse practitioners, dieticians, and office personnel) in providing comprehensive and coordinated health care.
8. To have the opportunity to improve history and physical examination skills.

DESCRIPTION: This course emphasizes the role of the family physician in providing comprehensive primary care for patients and their families across all age groups. By seeing patients in the hospital, the FPC, and the ER, the student will experience firsthand the concept of primary, comprehensive, and continuous care.

STUDENT EXPERIENCES

PREREQUISITES: Medicine, Pediatric, Surgery

STUDENT COORDINATOR: PHONE #: Nancy Parker (818) 993-4054  
E-MAIL: nancy.parker@chw.edu

REPORT TO: Nancy at Family Practice Center, 18406 Roscoe Blvd., Northridge, CA - 9:00 a.m.

AVAILABLE TO EXTERNS: Yes

STUDENTS / PERIOD: max 1 min 1

DURATION: 3 weeks

2006-2007 ROTATIONS BEGIN WEEKS: 2,5,8,11,14,17,20,27,30,33,36,39,42,45,48

DESCRIPTION: Medical Students participating in the Outpatient Family Medicine Clerkship will spend the majority of the rotation at the Family Practice Center where over 15,000 patients, of a largely lower income population, are seen each year. 6 full-time faculty, additional part-time faculty and over 100 community physicians are involved in teaching. Students see patients with the faculty and residents, attend tutorials with the nutritionist, participate in Podiatry, Dermatology, Neurology and Sports Medicine clinics, and attend daily educational conferences on a variety of topics. Northridge Family Practice Center is located less than 20 miles from UCLA (about 25 minutes away).

COURSE OBJECTIVES (in order of importance)
1. To define the problems of the patient’s visit in an independent setting with direct supervision.
2. To apply pathophysiologic principles to understanding the problem and management.
3. To attempt to understand each patient’s unique needs for medical care.
4. To expose the student to a variety of medical problems in a busy family practice.
5. To develop an appreciation of some of the ancillary disciplines that a family physician uses, i.e., nutrition, home health care, geriatrics, and subspecialty consultation.
6. To develop an in-depth understanding of a few areas of interest in family practice through tutorials and student presentations.
7. To participate in an outpatient orthopedic and fracture clinic.

ON-CALL SCHEDULE & WEEKEND ACTIVITIES: None required.

ADDITIONAL COMMENTS AND OTHER SPECIAL REQUIREMENTS: Students have the opportunity to provide care for outpatients under direct faculty supervision. Students receive temporary parking permits; meals are provided; sleeping accommodations are available for students by arrangement; students have use of library and photocopying privileges; there is RTD access.
COURSE OBJECTIVES (in order of importance)

1. Opportunity to provide primary care within the Family Practice Clinic with both urgent care and continuity practice problems, including high volume pediatric and gynecologic exposure.
2. Opportunity to provide primary hospital care on the Family Practice Resident Service which has an average census of 20-25 (including ICU and CCU patients).
3. Opportunity to work with a number of skilled and experienced clinicians, all with years of teaching experience.
4. Opportunity to provide care for the medically underserved at the Venice Family Clinic and Asian Pacific Health Care Venture
5. Opportunity to gain exposure to aggressive cancer screening, including flexible video-sigmoidoscopy.
6. Opportunity to better understand extended care and the team approach toward dealing with the medical needs of the elderly.
7. Opportunity to see a major HMO with over 40 years of experience in managed care health delivery.

STUDENT EXPERIENCES

COMMON PROBLEMS/DISEASES
1. Hypertension, CHF, angina
2. URI, pharyngitis
3. Asthma, pneumonia, COPD
4. Diabetes, lipid disorders
5. Depression/anxiety
6. Headache
7. Gastroenteritis, ulcer
8. Musculoskeletal

ON-CALL SCHEDULE & WEEKEND ACTIVITIES: Tuesday evenings at Venice Family Clinic.

ADDITIONAL COMMENTS AND OTHER SPECIAL REQUIREMENTS: This elective is best suited for medical students interested in a career in primary care medicine, particularly Family Practice. Also useful for those students desiring an inside view of the practice of medicine in a managed care system.
FP350.08 FAMILY MEDICINE

Subinternship: PHONE #: Martin Levitt, M.D. (818) 719-3973

COURSE OBJECTIVES (in order of importance)
1. Provides the student with an understanding of common ambulatory problems seen by a family physician.
2. Provides the student with an understanding of in-patient problems seen by a family physician.
3. Provides the student an understanding of the outpatient procedures performed by a family physician.
4. Provides the student with an understanding of the scope of care and treatment specializations performed by a family physician.

SUPPORTING FACULTY:
J. Safer, D. Kashinsky, L. Elizondo, M. Mason, Kathleen Dor, Ted O'Connell, Timothy Horita, Jose Garcia

STUDENT COORDINATOR: PHONE #: Martin Levitt, M.D. (818) 719-3973 E-MAIL: martin.levitt@kp.org

REPORT TO: Diane Lustig, 5601 De Soto, Woodland Hills, CA 91365-48084.

PREREQUISITES: Medicine, Surgery, and Pediatrics

AVAILABLE TO EXTERNS: Yes

STUDENTS / PERIOD: max 1 min 1

DURATION: 3 weeks

2006-2007 ROTATIONS BEGIN WEEKS:
By Arrangement

DESCRIPTION: This course emphasizes the role of the family physician in a managed health care setting. The student will work closely with Family Medicine faculty in high volume out-patient clinic and busy hospital environment. The student will join the Family Medicine Residency team on Medicine, (in the mornings, when available); otherwise mornings will be in FP clinic working with residents and faculty seeing outpatients.

ON-CALL SCHEDULE & WEEKEND ACTIVITIES: Optional. Subinterns are expected to take inpatient medicine call till ~10 p.m. when their team is on—usually every fourth night.

ADDITIONAL COMMENTS AND OTHER SPECIAL REQUIREMENTS: This elective is best suited for medical students interested in a career in primary care medicine, partially in family practice. Also useful for those students desiring an inside view of the practice of medicine in a managed care system. Meals are provided. Students have use of library and photocopying privileges. Parking is free.
COURSE OBJECTIVES (in order of importance)
1. Learn to provide health care to a medically underserved population in a community based free clinic.
2. Learn to diagnose and manage common problems in ambulatory family medicine.
3. Learn about interrelationships between community agencies, e.g., interacting with county health facilities, shelters, detox programs.
4. Work with all kinds of community volunteers -- physicians, pharmacists, nurses, clinic assistants and health educators.
5. Work with basic laboratory facilities in a cost-conscious manner.
6. Prescribe medications without charge to patients, keeping cost containment in mind.
7. Learn to understand how cultural issues impact on health care delivery.
8. Become exposed to special health care needs of new immigrants from Central America. For example: screening for parasitic infections and treating positive results; screening for Tuberculosis; providing appropriate immunizations for a previously non-immunized population.

DESCRIPTION: This course is designed to give the student exposure to ambulatory care family practice in a free clinic setting. Students completing this course will have the opportunity to volunteer at the Venice Family Clinic in the future under direct supervision from the course faculty. It is highly recommended that the student speak Spanish.
